EXAMINER

HOLLOMAN, NANNETTE

ART UNIT

PAPER NUMBER

1612

MAIL DATE

DELIVERY MODE

08/18/2009

PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/516,452	Applicant(s) ISHII, TETSUYA	
	Examiner NANNETTE HOLLOMAN	Art Unit 1612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 May 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,2,4-7 and 9-13 is/are pending in the application.
- 4a) Of the above claim(s) 9-13 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1,2 and 4-7 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☒ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Applicants' arguments, filed May 26, 2009, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

Claim Rejections - 35 USC § 103

Claims 1-8 were rejected under 35 U.S.C. 103(a) as being unpatentable over Syudo (EP 1151751) in view of Jen-Rendu et al. (US Patent Publication No. 2003/0012760). This rejection is maintained in regards 1, 2 and 4-7. Claims 3 and 8 are cancelled.

Applicant's Arguments

Applicant argues the "magnesium hydroxide-aluminum hydroxide co-precipitate", alumina magnesium hydroxide, as employed in the present invention, is described in the comparative examples of Syudo and showed insufficient performance. In addition, Applicant argues the composition of Syudo does not contain acrylic acid/sodium acrylate copolymer as an indispensable ingredient as in the present invention. Applicant further argues Jehn-Rendu et al. describes that the sodium polyacrylate is

Art Unit: 1612

used as a thickening agent and/or emulsifier, but do not teach that an aluminum compound is added to the composition, therefore the acrylic acid/sodium acrylate copolymer cannot be crosslinked.

Examiner's Response

It appears the Applicant is arguing the merits of the rejection based upon the disclosure of each reference alone. In regard to "magnesium hydroxide-aluminum hydroxide co-precipitate", the instant claims recite the genus and when looking to the instant specification for what is encompassed by the genus, at p. 8, line 6 magnesium aluminometasilicate, which is disclosed by Syudo, is listed as a magnesium hydroxide-aluminum hydroxide co-precipitate. Further, examples 1, 2, 5 and 6 of Syudo which comprise magnesium aluminometasilicate showed excellent results for overflow of plaster, exudation from the back face of non-woven fabric, adhesion of plaster to a film after removal, and adhesion of plaster to human skin after removal were not observed (p. 6, Table 3).

In regard to Jehn-Rendu, the reference was disclosed because it teaches that cosmetic gels that contain acrylic acid-sodium acrylate copolymers do not exhibit the disadvantage of causing friction and blotches on the surface of the skin, therefore providing the motivation to modify the gels of Syudo with said copolymers. In regard to the copolymer being cross-linked, the claims read on the polyacrylic acid or sodium polyacrylate being cross-linked with an aluminum compound and not the acrylic

Art Unit: 1612

acid/sodium acrylate copolymer, therefore the combination of references encompass the recited limitation.

Conclusion

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NANNETTE HOLLOMAN whose telephone number is (571) 270-5231. The examiner can normally be reached on Mon-Fri 800am-500pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frederick Krass can be reached on 571-272-0580. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
